THEMATIC AREA I.- European ongoing Life projects to fight against the illegal use of poison.

THEMATIC AREA II.- Toxicology, action protocols and legal aspects.

THEMATIC AREA III.- Predators ecology, Game management, Extensive livestock management.

## GENERAL INFORMATION

The “Poison, wildlife and society” congress is organized in the frame of the project LIFE09 NAT/ES/000533 “Innovative actions against illegal poisoning in EU Mediterranean pilot areas”. The congress is structured in a series of outstanding expert lectures on different professional areas linked with the illegal use of poison baits. These lectures are distributed in three thematic areas, each one linked to a roundtable which will join different experts and stakeholders related with the fight against poison. Moreover, the congress includes a demonstration session of the Life+ “Innovation Against Poison” European Canine Team, a specialized unit for the detection of poisoned baits.
